'THE INTELLIGENCE CAN ONLY BE LED BY DESIRE.' THE JOURNEY OF SIMONE WEIL

This exhibit reconstructs the human and intellectual journey of Simone Weil, who, starting from a very secular background, came to discover the religious dimension by pursuing with great purity her desire for justice. Her encounter with Christ was the fulfillment of a deeply personal quest for the truth. After dabbling in revolutionary politics, she discovered humanity's great philosophical and religious traditions and the reality of the *supernatural*. Her story illustrates how the longing for God is indestructible in the human heart and how the Mystery answers it in unexpected ways.
